

PRECAUTIONARY STATEMENTS

CAUTION: Causes irritation to skin, eyes, and respiratory tract. Harmful if swallowed or inhaled. Affects the central nervous system, liver, and kidneys. Wear goggles or face shield, rubber gloves and protective clothing when handling.

Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARD

This product is toxic to aquatic life.

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without notifying the local sewage treatment plant authority. For guidance, contact your State Water board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Do not mix with oxidizers, alkaline soaps and detergents.

Storage and Disposal

Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Open dumping is prohibited. Store only in original container. Do not reuse empty container. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

DISPOSAL: Wastes are acutely hazardous. Improper disposal of excess solution, spray mixture or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State environmental Control Agency, or the hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: (Larger than 1 gallon.): Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary land fill, by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of the smoke.

Surface Management and Treatment System™

SM1 - Part B

Sealant Ready to use.

To seal in the Surface management and Treatment System SMI Part A. For use on wood lumber, indoor and outdoor surfaces.

KEEP OUT OF REACH OF CHILDREN CAUTION

See side panel for Precautionary Statements

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.

SEALANT

This product is a ready to use solution that is applied as a sealant after Surface Management and Treatment System SM1 Part A to ensure that mold and mildew will not quickly or easily return. This patented product when applied per instructions seals cleaned and treated surfaces to keep mold and mildew from returning.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not for use on medical device surfaces.

1. Shake or stir well before using solution.
2. Before using this product food products and packaging materials must be removed from the room or carefully protected.
3. Apply this product following the complete drying of SM1 Part A, using a cloth. Mop, brush, or mechanical spray device.
4. When applied with mechanical spray device, surfaces must be sprayed until thoroughly wetted. Treated surfaces must remain wet for 10 minutes.
5. For sprayer applications, use a coarse (mist) pump or trigger sprayer. Spray 6-8 inches from surface and rub with brush, sponge, or cloth. Do not breathe spray (mist).
6. Do not apply this solution if microbes/fungus/mold has had a chance to re-grow. If there is a chance of repeated contamination, then repeat disinfection steps of Surface Management and Treatment System SM1 Part A and begin again at step 1 above.

NOTE: With spray applications cover or remove all food products. Prepare a fresh solution at least daily or when visible soiled or diluted. When not using product, keep in a dark place, out of direct light.
